

CLAIRE KIMANI

Junior Frontend Developer

+254 717 793 977 | kimaniclaire3@gmail.com | Nairobi, Kenya | github.com/clairekimani123

PROFESSIONAL SUMMARY

Frontend-focused Full-Stack Developer with hands-on experience building and deploying production-ready React applications, reusable component systems, and responsive interfaces. Proficient in JavaScript (ES6+), TypeScript, TailwindCSS, HTML5, and CSS3. Proven ability to integrate REST APIs, implement authentication systems, and collaborate in Agile engineering teams. Quick learner who adapts rapidly to new frameworks — excited to grow with Lit and TypeScript at InterIntel.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, TailwindCSS, Vue.js , Angular— Lit (actively learning)
UI & Design	Reusable component architecture, responsive/mobile-first design, cross-browser compatibility, clean UI/UX
Backend	Node.js, Express.js, Python, Flask, FastAPI, Laravel, Django — strong REST API design and integration
Databases	PostgreSQL, MySQL, SQLite — schema design and query optimisation
Auth & Security	JWT, OAuth 2.0, Firebase Auth, Google Sign-In, RBAC, bcrypt
DevOps & Tools	Git, GitHub, GitHub Actions CI/CD, Vercel, Netlify, Render, Nginx, VS Code, Postman
Learning	Lit framework, Flutter, AWS, advanced TypeScript, Docker

PROFESSIONAL EXPERIENCE

Backend Developer Intern

Content Aggregation Limited | August 2025 – Feb 2026 | Nairobi, Kenya

- ▶ Collaborate with frontend teams to integrate RESTful APIs — ensuring clean, predictable data flow and smooth UI behaviour across services
- ▶ Participate in code reviews, feedback sessions, and maintain comprehensive technical documentation
- ▶ Debug complex backend issues and improve existing code, demonstrating strong problem-solving and initiative
- ▶ Manage server deployment and Nginx SSL configuration; work within Agile Git workflows and branching strategies

TECHNICAL PROJECTS

HopeConnect — Full-Stack Digital Fundraising Platform

React, TailwindCSS, Flask, PostgreSQL, Firebase Auth, OAuth 2.0, Google Analytics 4, Vercel

- ▶ Built fully responsive, mobile-first React frontend with TailwindCSS — reusable components, dynamic routing, clean UI/UX

- ▶ Implemented Google Analytics 4 with custom event tracking across the donation funnel and user authentication flows
- ▶ Integrated Firebase Google OAuth and JWT email/password auth with role-based access control (donor/admin)
- ▶ Deployed with CI/CD via GitHub Actions to Vercel; diagnosed and resolved complex OAuth misconfiguration in production

JobTrackAI — AI-Powered Job Application Tracker

React, TypeScript, FastAPI, PostgreSQL, OpenAI API, TailwindCSS

- ▶ Building type-safe React components with TypeScript — directly aligned with InterIntel's TypeScript stack
- ▶ Integrating OpenAI API for intelligent resume analysis and interview preparation suggestions

SmilesCulture — E-Commerce Platform

React, TailwindCSS, Node.js, PostgreSQL

- ▶ Built full e-commerce platform with product catalogue, cart management, order processing, and payment integration
- ▶ Mobile-first responsive design with clean component architecture — currently being deployed

CareLink — Caregiver Marketplace Platform

HTML5, CSS3, Vanilla JavaScript

- ▶ Built from scratch with vanilla JavaScript — demonstrates deep understanding of core web fundamentals
- ▶ Dynamic content loading, real-time search, responsive design, and form validation without any framework dependency

EDUCATION

Software Engineering Intensive Program

Moringa School | Feb 2025 – Nov 2025 | Nairobi, Kenya

- ▶ Full-stack training: React, JavaScript, TailwindCSS, responsive design, Python, Django, Flask, FastAPI, REST APIs, Agile/Scrum, Git, CI/CD, SQLite, PostgreSQL, SQLALchemy.
- ▶ Deployed multiple production applications; collaborated in team environments simulating real engineering workflows
